TO WHOM IT MAY CONCERN

The Ministry of Health in the Nevis Island Administration supports the initiatives of the Caribbean Health and Education Foundation (CHEF) to promote and sustain healthy lifestyles in the Caribbean.

Given its mission to improve health and education outcomes and develop programmes in partnership with regional and international organizations, the Ministry of Health looks forward to working along with CHEF to realize this mission.

We view the launching of CHEF in July 2011 as a great opportunity to build a strong public / private sector partnership in the furtherance of the goal to strengthen the health care infrastructure and facilitate the prevention and treatment of chronic non- communicable diseases.

We are prepared to work with CHEF to improve the delivery of health and education services in the Caribbean.

Hon. Hensley Daniel

Deputy Premier &
Minister of Health
